

# FLEXIBLE HARROW

HARROW

Since 1885, the flexible harrow has excelled at improving turf and grass areas of all types. These harrows are ideal for use on sports fields, golf courses, parks, sod farms, race tracks and horse arenas. The harrow creates ideal growing conditions by removing thatch, breaking up clods and aerating the soil. The harrow is also an excellent tool for smoothing cultivated ground, spreading fertilizers or topdressing materials and incorporating broadcast seed. The versatile harrow can be reversed for a less aggressive tine angle, or used upside-down as a drag-mat.

# FLEXIBLE HARROW

The Redexim Charterhouse Sports Harrow is available in a variety of trailed models and configurations to fit every need. The modular construction provides operating widths from 4 feet to 12 feet and larger, while the optional 3-point lift kit allows easy transport between work areas. The Sports Harrow is specifically designed for use behind compact tractors or utility vehicles.

## WORKING SPECIFICATIONS

Model	No. of sections	Working width	Weight Complete
Mounted	1	4 ft x 4 ft (1.2 m x 1.2 m)	204 lbs (92.5 kg)
	2	8 ft x 4 ft (2.4 m x 1.2 m)	298 lbs (135 kg)
	3	12 ft x 4 ft (3.7 m x 1.2 m)	392 lbs (178 kg)
Trailed	1	4 ft x 4 ft (1.2 m x 1.2 m)	94 lbs (43 kg)
	2	8 ft x 4 ft (2.4 m x 1.2 m)	186 lbs (84 kg)
	3	12 ft x 4 ft (3.7 m x 1.2 m)	282 lbs (128 kg)
Tine Size	1/2" x 4" (13mm x 102mm)		
Tine Quantity	60 per 4 foot (1.2 m) section		
Material	Cold-bent high tensile steel with tubular steel drawbar		
Drawbar Lengths	4 ft, 8 ft and 12 ft (1.2 m, 2.4 m, 3.7 m)		
Options	3-point lift frame		

## FEATURES / BENEFITS

FEATURE	BENEFIT
Proven harrow action	Removes thatch quickly, aerates soil, encourages new growth
Optional 3-point liftFast and effective tow-behind operation	Fast transport between work areas
High Working Rates	Fast and effective tow-behind operation
Self-Cleaning action	Requires no maintenance
Versatile configurations	Widths from 4 ft to 12 ft (1.2 m to 3.7 m)
Works in fertilizer	To both spread and maximize effectiveness
Herbicide incorporation	Levels the ground, sealing in herbicide for maximum action
