

ARTIFICIAL TURF

VERTI-BRUSH

The Verti-Brush quickly and effectively levels and distributes applied or existing infill with powerful hydraulic brushes. The five counter-rotating brushes can easily reach to the base of the turf to loosen and evenly redistribute fill or can be applied to mix and level a new application. The durable poly brushes can be accurately set to a specific depth to achieve a light surface brush-in or aggressively mix and loosen the deepest fill.

VERTI-BRUSH

- The Verti-Brush is also ideal for new installations where initial distribution of infill is critical to the life and playability of the field.
- Hydraulic rotating brushes quickly loosen and distribute infill

WORKING SPECIFICATIONS

Working Width	59.5" (1.50 m)
Weight	375 lbs (170 kg)
Tractor recommended	13 hp (9.7 kW) with double acting valve and 2.6 g (10 L) per min. at 1,015 psi (70 bar)
Dimensions	120 cm x 170 cm x 85 cm (47 in x 67 in x 33 in)

FEATURES / BENEFITS

FEATURE	BENEFIT
easy depth adjustments	will meet the requirements of any field
five brush rotary action	will loosen and redistribute the infill down to the base
simple design	easy operation & easy brush replacement
can be used with vehicle or tractor	versatile piece
