

RINK TOP DRESSER

1200

The 12 series top dressers offer you the widest brush applicator top dresser available with a smooth even spread, over 6 ft. wide. This makes the 1205 body mount spreader ideal for fitting onto your utility vehicle, as its spreading width will be outside the vehicle's wheel width.

RINK TOP DRESSER 1205

The 1205 is hydraulically powered, either from the prime mover or optional auxiliary tank and pump unit. The full width continuous loop belt has edge guides to ensure central tracking. The Rink delivery and metering system is designed to ensure smooth, even distribution of all types of top dressing materials, including wet sand. The 12 series dressers are ideal for all golf course applications and when used with the optional twin spinners can spread up to 30' wide in one smooth pass. The hopper is made of aluminum to avoid rusting.

WORKING SPECIFICATIONS

Length	63" (1.6 m)
Road Width	80" (2.0 m)
Working Width	72" (1.8 m)
Height	39" (1.0 m)
Weight	661 lbs (300 Kg)
