

The Advantage of High Quality

Mulching Equipment Pioneers

Founded in 1939 by Max Seppi, SEPPi M. is now one of the foremost manufacturer in its sector - not only in Europe, but worldwide. A pioneer like no other, SEPPi has been manufacturing mulching equipment for more than 40 years. SEPPi's mission is "To improve the professional's work through innovative and efficient solutions".

The many years of experience, together with the tireless research for more advanced technologies and more resistant materials result in the premium quality of the SEPPi equipment with tough machines that are reliable even under extreme working conditions.

The biggest gratification over the past 70 years has been our satisfied customers, who have benefitted from long and efficient work with the SEPPi equipment – a continuous motivation to keep on focusing on high quality! The family-based character of the company today being led by the third generation, stands for fair and responsible business relationships.

Quality by Design

DISCHARGE MULCHERS FOR COLLECTION INTO TRAILER

MIDIFORST DRAGO

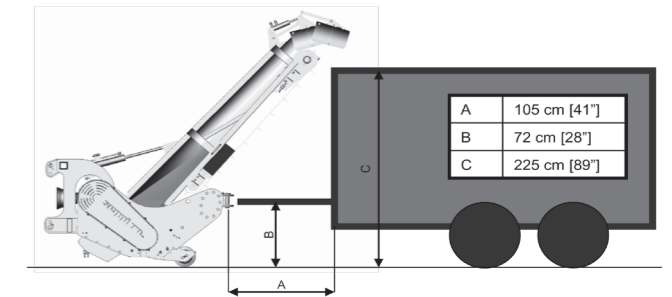

100-170 HP

features	MIDIFORST drago
mulches material and wood up to	15 cm [6"] Ø
rotor with combination of tools	SMW hammers and fixed knives
chute for material collection	hydraulic folding
chute deflector	hydraulically adjustable
conveyor belt	hydraulic operated
required external services	3 double acting
working speed	0-5 km/h
ISO 3-point rear linkage	central fixed, cat. 2
gearbox with freewheel	1000 rpm
input shaft	1"3/4 Z=6
double drive	S
belts	10
trailer hitch	adjustable in height
support roller	adjustable in height (5 cm / 2")
front protection	double chains
rear hood	with rakes

Universal powerful forestry mower with a chute for collecting the mulching material

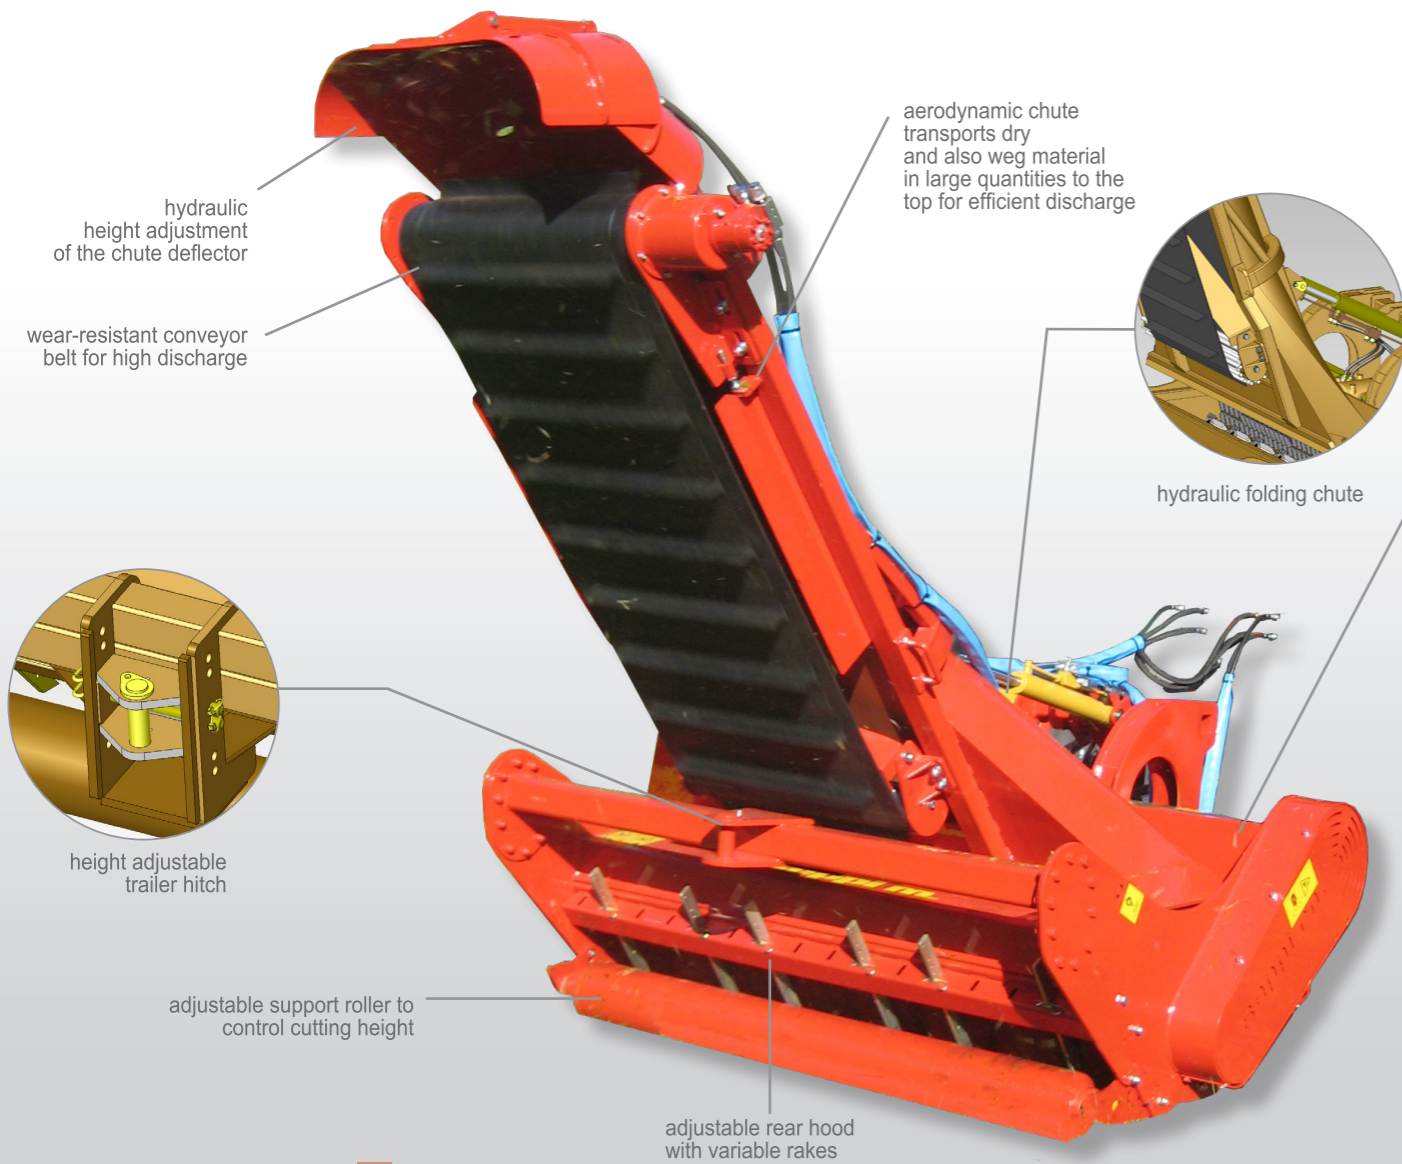

The mulched material is taken by a conveyor belt up the chute and can then be collected and carted away in a trailer, leaving the soil clear of material. The **MIDIFORST drago** collects wood up to 15 cm [6"] from the forest floor for further use. As well as wood various other materials such as grass, leaves and biodegradable waste can be mulched and collected.

- Applications:
- collection of material for energy production
 - clearing of site for replanting
 - collection of biomass for composting
 - environmental clearing in urban areas

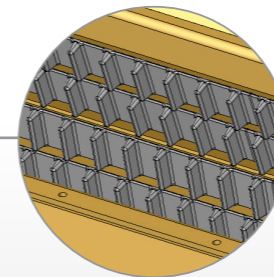

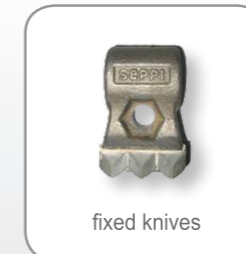

Machine delivered without trailer. When using a trailer, make sure it matches the dimensions beneath.

S: standard

ROTOR TOOLS

CROP YIELD

Figures with typical applications (result of laboratory analysis). The result varies according to the particular work situation.

productivity	30-60 m ³ /h [39 - 78 yd ³ /h]
heating value (upper)	18-20 MJ/kg [7,738-8,598 Btu/lb]
density	40-80 kg/m ³ [2.4-4.8 lb/ft ³]
water content	5-10 % (mass)
fine fraction (pollution)	< 2% (mass)

MIDIFORST drago		depth cm ["]	height cm ["]	weight* kg [lb]	rotor tools #		kW** min-max	HP** min-max
working width cm ["]	overall width cm ["]				SMW hammers	fixed knives		
200 [79]	233 [92]	140 [55]	200 [79]	2.220 [4,895]	30	32	74-127	100-170

* The weight of the machine is approximate, it refers to the standard version without any options and it may vary.
** The indicated kW and HP refer to the power required at the PTO output shaft, not to the nominal tractor power.
